

BISHAL JHA

AI ENGINEER

CONTACT

- +91 8861425379
- jhab8505@gmail.com
- Jain Global Campus, Kanakpura

SKILLS

- Artificial Intelligence (AI)
- Machine Learning (ML)
- Data Science & Analytics
- Generative AI
- Automation & Software Engineering
- Python Programming
- Problem Solving & Critical Thinking
- Research & Knowledge Sharing

LANGUAGES

- English (Fluent)
- Hindi (Fluent)
- Nepali (Fluent)
- German (Basic)

REFERENCE

Dr.ShivaKumar C
Phone: +91 8762417437

PROFILE

Passionate AI Engineer with expertise in Machine Learning, Data Science, and Generative AI. I enjoy solving complex problems through data-driven solutions and innovative algorithms. Actively exploring automation and software engineering, I share insights on ResearchGate and collaborate on AI-driven projects that enhance efficiency, inspire creativity, and drive meaningful real-world impact.

WORK EXPERIENCE

AI Research Projects 2024 - PRESENT
Machine Learning & Generative AI

- Designed and implemented ML models to analyze datasets and extract meaningful insights.
- Collaborated with peers on AI-driven applications, fostering teamwork and innovation.
- Documented project outcomes and shared findings through ResearchGate publications.

Academic Projects - Jain University 2024 - 2028
Computer Science Student

- Applied supervised and unsupervised learning techniques to real-world case studies.
- Conducted experiments in Generative AI, focusing on automation and creativity.
- Presented project results, highlighting applications in industry-relevant domains.

Research and Explore

Astrophysics and Quantum physics

- Researched astrophysics with focus on M87 black hole imaging and mathematical validation.
- Explored quantum physics concepts and their computational applications.
- Published research on ResearchGate in astrophysics, quantum physics, and AI.

EDUCATION

Bachelor Of Engineering 2024 - 2028
Computer Science | Jain University
CGPA: __

High School Graduate 2021 - 2023
Pure Science | United Academy
GPA: 3.6 / 4.0
